## General Manufacturing Webinars

---

Tefen's general manufacturing webinars focus on strategies to becoming Best in Class companies

### New Product Introduction & the Supply Chain: A Process for Ensuring Continuity of Supply

---

For a successful new product launch, it is critical to have a process that incorporates the supply chain and design teams from initial concept to supplier selection to testing through market launch.

Join Alicia Scavona, Project Manager, Tefen USA on April 7, 2010 at 1:30EST to learn:

- How to identify and mitigate risks prior to market release
- A process and methodology linking design and supply chain deliverables

This webinar is sponsored by [Medical Product Outsourcing](#), the only global magazine dedicated to the growing trend of medical device outsource manufacturing.
